

OP-	Name	Title	Date of presentation
1.	Paul Atish	Conophylline inspired carbazole and indole oxoacetamides analogues as anti-obesity leads	15-11-2018
2.	Agnihotri Navneet	Fish oil as a chemosensitising agent in experimental colon cancer	15-11-2018
3.	Negi Poonam	Thymoquinone loaded polymeric micelles for wound healing	15-11-2018
4.	Patel Dipeeka Kumari	Co-amorphization of a Bioflavonoid- An Approach to Enhance Dissolution and Oral Bioavailability	15-11-2018
5.	Patel Monika	Base-Mediated Deuteration of Organic Molecules: A Mechanistic Insight	15-11-2018
6.	Choudhary Neeraj	Pharmacognostical investigation of roots of Operculina turpethum (L.)	15-11-2018
7.	Mishra Tripti	Chebulinic acid isolated from the fruits of Terminalia chebula specifically induces apoptosis in acute myeloid leukemia cells	15-11-2018
8.	Biswas Ranu	Extract-loaded polymeric microspheres: Formulation development and characterization	15-11-2018
9.	Bhandari Pamita	Bioactive molecules from indian medicinal plants	16-11-2018
10.	Chanana Harshit	Therapeutic potential of the dietary anthocyanidin-delphinidin an intensive investigation	16-11-2018
11.	Mishra Pawan	N-Propargylamines: An efficient intermediate for synthesis polysubstituted pyrroles	16-11-2018

12.	Kumar Sandeep	Piperlongumine: A promising chemopreventive agent for colon cancer	16-11-2018
13.	Patil Shivprasad Suresh	Exploration of steroidal saponins rich himalayan bioresource for phytopharmaceuticals	16-11-2018
14.	Kumar V, ²	IIIM-141 the saffron based nutraceutical product for alzheimer's disease: Chemical standardization efficacy formulation development pharmacokinetics and safety pharmacology	16-11-2018
15.	Subham Das	Study of Gastrointestinal Safety and Anti-Inflammatory Effect of 134-Oxadiazole Derivatives of Ketoprofen	16-11-2018
